

# Jun

Originating in ancient Asia, with the earliest mentions coming from manuscripts in Northeast China dating back to 600 BC, the live Jun culture has long been known to promote activation of one's Chi (energy). Studies indicate a washing out of environmental toxins, increased circulation, antibiotic qualities & all the other benefits that come with probiotics and beneficial bacteria. Based in Chinese green tea, fed with raw honey and infused with medicinal herbs - each version is in its own way both delicious & healing. Mixed with purified water, it becomes a tonic. With juice it transforms & rejuvenates.

8 /glass 38 /bottle

## Jun & juice

10 / glass

combine one of our organic juices with your favorite type of Jun from below
